Mr. Vikas Verma
B.Tech (CSE), M.Tech (CSE), Ph.D. (CSE) *
Assistant Professor

Mr. Verma, an accomplished educator with over 12 years of teaching experience, specializes in Software-Defined Networking (SDN), Machine Learning, Android App Development, and Salesforce. Holding B.Tech, M.Tech, and Ph.D. degrees in Computer Science, his research spans energy-efficient SDN frameworks, traffic classification, Multi-Omics Integration for leukemia detection, and AI-driven medical diagnostics. With numerous publications in SCI and Scopus-indexed journals, his work delves into flow classification, optimization algorithms, and predictive analytics. Passionate about knowledge dissemination, Mr. Verma integrates cutting-edge advancements into academia, fostering critical thinking and preparing students for complex industry challenges in intelligent computing and next-generation networks.
