

Name: Mr. Ankit

Designation: Assistant Professor

Qualification: M. Pharma (Medicinal Chemistry)

Mr. Ankit is currently working as Assistant Professor at the ICFAI School of Pharmaceutical Sciences, The ICFAI University, Jaipur.

His research interests span medicinal chemistry, nanotechnology-based drug delivery, in-silico drug design, and novel therapeutic approaches. He has published several research articles in reputed journals, including *Therapeutic Delivery*, *Naunyn-Schmiedeberg's Archives of Pharmacology*, and *Polymer Composites*, and contributed book chapters with Springer on neurodegenerative diseases and multiple sclerosis.

Mr. Ankit has hands-on expertise in techniques such as UV/IR spectroscopy, chromatography, molecular docking, statistical analysis, and advanced research software. He has actively participated in multiple Faculty Development Programs and workshops on academic research, IPR, and teaching effectiveness.

With strong leadership, planning, and mentoring abilities, he is committed to fostering research, innovation, and holistic development in pharmaceutical sciences
