

Name: Ms. Sonima Prasad

Designation: Assistant Professor

Qualification: B. Pharm, M. Pharm (Pharmacology), PhD

Ms. Sonima Prasad is presently serving as Assistant Professor at the ICFAI School of Pharmaceutical Sciences, ICFAI University, where she teaches and mentors undergraduate students.

Her research expertise is in neuropharmacology, zebrafish behavioural models, nanotherapeutics, and drug discovery. She has published numerous review articles in reputed international journals from leading publishers such as Springer, Elsevier, Taylor & Francis, Wiley, ACS, Bentham Science, and Mary Ann Liebert. Her notable works have appeared in *Inflammopharmacology*, *Neurotoxicology*, *Current Molecular Biology Reports*, *Discover Oncology*, *Chemical Biology & Drug Design*, and *ACS Chemical Neuroscience*. She has also written book chapters published by Springer, Elsevier, Taylor & Francis, Apple Academic Press, and other renowned publishers.

In addition to her academic and research contributions, Ms. Sonima is the inventor of two design patents: a Z-embryo bedding system and a Multi-zone aquatic chamber for zebrafish-based behavioural studies in neurological disorders. With her strong foundation in both research and teaching, she continues to focus on advancing innovative therapeutic strategies in neuropharmacology and translational medicine.
