

MS. SONIMA PRASAD
ASSISTANT PROFESSOR
ICFAI SCHOOL OF PHARMACEUTICAL SCIENCES
THE ICFAI UNIVERSITY, JAIPUR
Email: sonima.prasad@iujaipur.edu.in

Ms. Sonima Prasad is an Assistant Professor at the ICFAI School of Pharmaceutical Sciences, The ICFAI University, Jaipur. She is currently pursuing her Ph.D. from Banasthali Vidyapith, Rajasthan, and holds an M.Pharm in Pharmacology from ISF College of Pharmacy, Moga. Her research interests include neuropharmacology, neurodegenerative disorders, zebrafish disease models, behavioural pharmacology, neuroinflammation, phytopharmacology, cancer therapeutics and targeted drug-delivery systems.

She has published numerous research and review articles in reputed peer-reviewed journals, including *Molecular Neurobiology*, *Inflammopharmacology*, *Discover Oncology*, *Chemical Biology & Drug Design*, *Medicinal Chemistry Research* and *Colloids and Surfaces B: Biointerfaces*. She has also authored and co-authored a book and several book chapters published by Elsevier, Taylor & Francis and Lambert Academic Publishing. Her scholarly contributions focus on neuroprotective natural compounds, experimental models of neurological disorders, inflammatory signalling and advanced nanotherapeutic approaches. She is also associated with two registered design innovations related to zebrafish research.

Ms. Sonima Prasad has guided postgraduate and undergraduate research projects and contributed to establishing a zebrafish research laboratory, including protocol development and research initiation. She has received recognition for her academic and research presentations and has undertaken specialized training in 3D bioprinting and network pharmacology. In addition to teaching and research, she contributes to academic administration through various institutional and departmental committees and actively participates in NAAC-related activities.
