

**MR. ANKIT**  
**ASSISTANT PROFESSOR**  
**ICFAI SCHOOL OF PHARMACEUTICAL SCIENCES**  
**THE ICFAI UNIVERSITY, JAIPUR**  
**Email: [ankit@iujaipur.edu.in](mailto:ankit@iujaipur.edu.in)**

**Mr. Ankit** is presently working as an Assistant Professor at the ICFAI School of Pharmaceutical Sciences, The ICFAI University, Jaipur. He earned his Master of Pharmacy in Medicinal Chemistry from the Central University of Punjab, Bathinda, and Bachelor of Pharmacy from Maharshi Dayanand University, Rohtak. He has more than four years of experience in pharmaceutical education, research and academic administration.

His primary research interests include medicinal chemistry, computer-aided drug design, molecular docking, antimicrobial drug discovery, neuropharmacology, nanotechnology-based drug delivery systems and the therapeutic evaluation of natural bioactive compounds. His postgraduate research focused on the in-silico investigation of dihydrofolate reductase inhibitors as potential antibacterial agents. He has also guided undergraduate students in antimicrobial research projects.

Mr. Ankit has authored several research and review articles published or accepted in peer-reviewed journals, including *Molecular Neurobiology*, *Zeitschrift für Naturforschung C*, *Polymers and Polymer Composites*, *Therapeutic Delivery* and *Letters in Drug Design & Discovery*. His scholarly work encompasses antimicrobial drug targets, neuroprotective agents, polymeric micelles, bioplastics, biopesticides and nanotechnology-based therapeutic strategies. He has also contributed book chapters on multiple sclerosis, neurodegenerative diseases and chronic inflammation published by internationally recognized publishers such as Springer and Elsevier.

His technical expertise includes UV and IR spectroscopy, thin-layer chromatography, column chromatography, fluorescence microscopy, molecular docking and chemical structure designing. He is proficient in scientific and data-analysis software, including ChemDraw, Schrödinger, GraphPad Prism, EndNote and BioRender.

Alongside his teaching and research responsibilities, Mr. Ankit actively contributes to academic governance and institutional development. He serves as a member of the External Examination Committee and as Member Secretary of the Departmental Discipline Committee and Unfair Means Committee. He is also involved in departmental NAAC activities. He has participated in several faculty development programmes and workshops related to teaching effectiveness, academic research and intellectual property rights.
